

BORIS EDUARDO BELTRÁN GARCÍA

FRONTEND DEVELOPER | FULL-STACK EXPERIENCE | E-COMMERCE

Ciudad Guayana, Venezuela | borisbel231199@gmail.com

LinkedIn | GitHub | Portafolio

PROFESSIONAL SUMMARY

Computer Engineer with 3+ years of experience in frontend and full-stack development. I build web products with React, Next.js and Shopify, and develop server-side solutions with TypeScript, PHP and Python, REST and GraphQL APIs, relational databases, CMS integrations and cloud deployments.

PROFESSIONAL EXPERIENCE

Junior Software Engineer / Frontend Developer | LCC OpenTech | Remote **Feb. 2024 - Present**

- **Salomon Truck Parts:** developed and maintained a headless storefront with React, TypeScript, Shopify Hydrogen and GraphQL; worked on product search and indexing, collection hierarchies, cart state and Oxygen deployments.
- **CheckRent / WooCommerce:** extended a WordPress child theme with PHP, AJAX and JavaScript for forms and booking flows; implemented check-in/check-out validation, order email templates and scheduled currency updates.
- **Industrial monitoring platform:** contributed to a full-stack real-time telemetry and analytics solution, integrating a React/TypeScript web-based HMI with Python/FastAPI services, REST APIs, MQTT, PostgreSQL/TimescaleDB and Docker.
- **MAG Builders and Gaby Pacheco:** built and maintained interfaces with Next.js/Hydrogen, React, TypeScript, Sanity and Builder.io; integrated transactional email with Resend and improved subscription and payment-method API routes.
- **#PareceFácil:** developed the catalog, checkout and cart operations for a Shopify fitness store using React and Tailwind CSS.

Undergraduate thesis - Instagram sentiment analysis | UCAB **Dec. 2022 - Nov. 2023**

- **Full-stack platform:** developed a React dashboard connected to a Flask REST API and MySQL to collect and analyze Instagram data, classify sentiment with a pretrained model, and visualize content and engagement metrics.

Computer Engineering Internship | Universidad Católica Andrés Bello **Feb. 2022 - Apr. 2022**

- **Institutional desktop application:** developed React/Electron, Node.js, Express and MySQL modules to manage students, professors, programs and community service programs and participant progress, including Excel/PDF uploads and report generation.

TECHNOLOGIES

Languages: JavaScript, TypeScript, Python, PHP, C, C#.

Frontend: React, Next.js, Shopify Hydrogen, HTML, CSS, Tailwind CSS, Builder.io.

Backend and data: Node.js, PHP/WordPress, GraphQL, REST APIs, FastAPI, MySQL, PostgreSQL.

Cloud and tools: Shopify Oxygen, Cloudflare Workers, Sanity, Git, Docker, Figma.

EDUCATION AND CERTIFICATIONS

Computer Engineering - Universidad Católica Andrés Bello, Guayana Campus | 2017 - 2023.

Professional Programming Certificate - Escuelas Millonarias | 2024.

Introduction to Ray Tracing and Path Tracing Algorithms - EVI / UCAB | 2017.

LANGUAGES

Spanish: native. | **English:** elementary (A2).
